

PRESS RELEASE

Auriga and Dilaco sign a new technology and services partnership for banking customers across Benelux

Dilaco to distribute Auriga's cutting edge cybersecurity solution & provide specialist support services

London, February 8th 2021 - Auriga, a global provider of technology solutions for the omnichannel banking and payments industries, today announced a new strategic partnership with [Dilaco](#), IT specialist Consulting and Outsourcing provider in Belgium.

Through this partnership, Dilaco will enlarge its consulting and service offerings with Auriga's cutting edge cybersecurity solution [Lookwise Device Manager \(LDM\)](#) for securing all digital self-service banking assets, web channels and remote workstations that are used by bank employees.

Dilaco will utilise LDM to further enhance their cybersecurity services for the financial sector by providing best in class tools and technology to monitor and manage device security, prevent threats and respond to incidents even more rapidly and effectively.

Auriga technology complements the specialist IT support services that Dilaco provides financial institutions in Benelux. Its offering consists mainly of help desk services, proactive monitoring services on self-service devices, hardware maintenance coordination and cash in transit services coordination. Dilaco's objective is to boost efficiency, increase productivity, continuous access to cash and continuity of services for banks in Belgium.

Vincenzo Fiore, CEO, Auriga comments: *"We're proud to partner with Dilaco and provide the Lookwise Device Manager to help secure critical banking services and infrastructure in the Benelux region. Our joint clients will benefit from full protection, comprehensive security monitoring and control of their networked devices that are so essential to how they serve their customers, especially in these unprecedented times."*

Jeff de Kleijn, CEO, Dilaco says: *"We are delighted to be able to bring this powerful cybersecurity solution to financial institutions across the region. This technology, alongside our specialist services and support, will enable our customers to guarantee optimal availability and accessibility of banking services while preventing or minimizing the impact of cyber-attacks and ensuring effective control of the network."*

About Dilaco

Dilaco is an information technology and services company that uses technical expertise and experience to understand the needs of a company's specific sector and to stimulate innovation and maximise the usefulness of technology. Founded in 1996, they develop tailor-made ideas to ensure growth by relieving a company's employees of their IT issues. More information via: <https://www.dilaco.eu/>

About Auriga

Auriga is a leading supplier of software and technological solutions for the banking and payments industries, and a specialist provider of innovative omnichannel solutions to banks and other financial institutions. Its solutions, deployed on over 70% of Italian ATMs, are founded on modern architecture and improve time to market for new services while lowering costs, protecting critical devices from cyber-attacks, and building long-term competitive advantage. Auriga is a global company with a direct presence in Italy, UK, France, Spain, Germany and Mexico, and expanding operations in Western and Eastern Europe, Latin American (LATAM) and Asia-Pacific (APAC).
